SUMMARY

Motivated Full Stack MERN Developer with 6 months of hands-on internship experience building full-stack web applications using MongoDB, Express.js, React.js, and Node.js. Skilled in developing responsive UIs, REST APIs, and integrating AI-driven features into real-world projects. Completed SMIT's Full Stack Web Development course. Eager to contribute strong problem-solving and development skills to a growing engineering team.

WORK EXPERIENCE

MERN Stack Developer Intern

Jun 2025 - Dec 2025 AK Solution Software House (6 Months)

- Worked on full stack self-projects using the MERN stack, gaining hands-on experience in building and deploying web applications
- Developed frontend components with React.js and integrated backend REST APIs built with Node.js and Express.js
- Designed and managed MongoDB databases for application data

PROJECTS

AI Doctor Assistant (MERN Stack) - [Live Demo](#)

- Built a full stack application that analyzes medical reports, tracks health metrics, and generates personalized diet recommendations using AI
- Stack: MongoDB, Express.js, React.js, Node.js - Self Project

AI Video Generator (MERN Stack) - Under Development

- Developing an AI-powered platform that generates long-form videos with automated voice generation, video creation, and editing
- Stack: MongoDB, Express.js, React.js, Node.js - Self Project

Local Business Gym Website (MERN Stack) - [Live Demo](#)

- Designed and developed a full stack business website for a local gym, including service listings and business info pages
- Stack: MongoDB, Express.js, React.js, Node.js - Self Project

HACKATHON

AI Bill Analyzer

SMIT Final Hackathon

- Built an AI-powered tool in 6 hours allowing users to upload bills and instantly receive an AI-generated summary and detailed breakdown
- Awarded Certificate of Achievement

CERTIFICATIONS

- Full Stack Web Development - SMIT (2025)
- MERN Stack Developer Internship Certificate - AK Solution Software House
